

AVINASH YEDLAPALLI

Full Stack Developer | AEM (Adobe Experience Manager)

avinashmanikiran@gmail.com | +91 8919988003 | [LinkedIn](#) | [avinash2you.me](#) | Hyderabad, India

PROFESSIONAL SUMMARY

AEM Full Stack Developer with 3+ years of hands-on experience delivering enterprise solutions on Adobe Experience Manager (AEM 6.x & Cloud Service). Deep expertise in OSGi/Sling/JCR architecture, custom component and template development, AEM Dispatcher caching, and RESTful API integrations with third-party systems. Proficient in modern front-end engineering using ReactJS, Redux, and JavaScript (ES6+), and backend Java development for OSGi bundle services. Experienced with CI/CD pipelines (Maven, Azure DevOps), Agile/Scrum delivery, code reviews, and technical documentation. Adobe Certified AEM Developer with a proven track record of translating business goals into scalable, secure, enterprise-grade digital experiences.

CORE TECHNICAL SKILLS

AEM	AEM 6.x & Cloud Service, OSGi / Sling / JCR, HTL, Sling Models, Core Components, Adaptive Forms, Dispatcher, Cloud Manager
Frontend	JavaScript (ES6+), ReactJS, Redux, HTML5, CSS3 / LESS / SASS, Webpack
Backend	Java 8+, Sling Servlets, RESTful APIs, JUnit / Mockito, Maven, Git
Security / DevOps	OAuth2, Azure AD B2C, OWASP standards, CI/CD (Azure DevOps), AWS / Azure
Soft Skills	Stakeholder Management · Agile / Scrum · Code Reviews · Technical Documentation

PROFESSIONAL EXPERIENCE

Software Engineer – AEM Full Stack

Jul 2023 – Present

Microchip Technology · Hyderabad, India

- Designed, developed, and deployed custom AEM components, templates, and OSGi services using Java, Sling Models, and HTL — aligned with AEM Core Component best practices; managed deployments through AEM Cloud Manager CI/CD pipelines on AEM as a Cloud Service.
- Wrote and maintained unit tests, integration tests, and performance tests for AEM applications using JUnit and Mockito; conducted peer code reviews to enforce coding standards and architectural alignment, and authored detailed technical documentation for configurations and deployment procedures.
- Implemented WCAG 2.1 accessibility standards across AEM components and front-end templates, ensuring AA-level compliance for global product pages and improving inclusive user experience.
- Enforced OWASP security standards within the AEM application layer — applied input validation, secure session management, and XSS mitigation practices; implemented Azure AD B2C SSO with MSAL.js and OAuth2 progressive profiling, increasing user registrations by 7%.
- Architected event-driven content governance and Sling Scheduler pipelines synchronizing 60,000+ DAM assets with external systems at 99.9% accuracy via RESTful API integration.
- Implemented AEM Dispatcher caching strategies and performance-tuning configurations, driving a measurable 15% uplift in user engagement through optimized global search and landing page UX modernization.
- Led AI-powered chatbot integration on AEM product pages using React.js and downstream API integration, improving product discoverability and self-service resolution rates.
- Collaborated with architects, product owners, designers, and QA teams in Agile/Scrum ceremonies to translate business requirements into enterprise-grade AEM solutions; built internal automation tooling reducing manual configuration effort by 30%.

Software Developer Intern – AEM

Jan 2023 – Jun 2023

Microchip Technology · Bangalore, India

- Implemented role-based authoring controls and dialog-level security validations using AEM Authorization APIs, strengthening platform-wide content governance.
- Developed custom Sling Servlets and JCR-based Sling Models for dynamic content rendering and real-time delivery through RESTful endpoints.
- Automated large-scale DAM metadata operations using Groovy scripts, improving repository consistency and governance at scale.
- Collaborated with cross-functional stakeholders to convert business goals into scalable AEM component architectures following best-practice design patterns.

PROJECTS

AI-Powered Resume Analyzer · *React, Redux, React Router, Puter.js, Tailwind CSS*

- Engineered an AI-powered resume screening web app with ATS-style scoring and tailored feedback; managed application state with Redux for scalable, predictable data flow across multi-step workflows.
- Implemented secure browser-based authentication, resume upload, and storage using Puter.js (serverless SDK) with a fully component-driven ReactJS architecture and React Router navigation.

Personal Portfolio · *React.js, HTML5, CSS3*

- Built a component-driven portfolio in ReactJS with clean routing, reusable UI sections, and mobile-first responsive design using HTML5 and CSS3.

EDUCATION & CERTIFICATIONS

B.Tech — Computer Science & Engineering

2019 – 2023 · GPA: 8.24 / 10

VIT-AP University, Amaravati

- Adobe Certified Expert (ACE) – AEM Developer · Adobe, 2024
- Certified Frontend Developer · Meta, 2023

Languages: Telugu (Native) · English (Professional Proficiency)
